

I contribute to the learning around me.

Follow this link and make a bird feeder. I wonder how many different varieties of birds you can spot?

[Make a bird feeder - CBeebies - BBC](#)

Active learner

Whole school think:-
Could you ever learn too much?

Visit a local park or wood and observe the different plants that are growing there. Can you find a Sycamore tree? Sit under the tree and watch the shadows.

Contented Soul

I can show interest in supporting charities.

What charities do your local charity shops support? Can you research these charities? Are there any items in your home that your family don't use any more that you could donate?

Thoughtful Citizen
